Your charity must be...

- Registered with the Canada Revenue Agency (CRA)
- Community-based (you should be able to drive to it in 20 minutes)
- Provide social services directly to people (not animals) in the local community

Gather a group of three to five students and choose any local charity based on a specific social issue important to your group. You must clear your group and charity with your teacher by **October 5th**.

You must...

- Thoroughly research your social issue and programs / services provided by your charity
- Make physical contact with your charity at least once – take photos, ask for resources, do interviews. You must meet with your charity by **October 19th**.
- Create a visual component (eg: powerpoint, skit, bristol board, etc.) Your presentation must not rely on accessing the internet.
- Present your charity to the class (in 10 minutes) in the final weeks of the course
- Prove why your charity is the most deserving of the \$5000

The best presentation of all Civics classes will be given **\$5000 from YPI Canada** to donate to their chosen charity.
